- Use the appropriate connector to plug the Powerstick+ into your device's charger port.
- Press the button to start charging your device.
- USB memory stick is Plug & Play, compatible with any multimedia and data storage.

NOTE: In case of problems with your unit, press the power button for ten seconds to reset it.

## Specifications

Battery Type	Lithium Polymer
Output Voltage	DC +5.0V max
Output Current	1.0A max
Operating T°	0 to 40°C / 32 to 104°F
Storage & Transportation T°	-20 to 50°C / - 4 to 122°F
Charge Time (90% capacity)	2 hrs with AC adapter of 5V/1.0A output
Discharge Time	0 to 90 minutes
Dimensions	4.6"x1.3"x0.7"
Weight	2.6 oz
Cycle Life	500
Charge Input Voltage	+5.0V +/-10%
Charge Input Current	1.2A max
Capacity	2300 mAh

### CAUTION

RISK OF EXPLOSION IF BATTERY IS REPLACED  
BY AN INCORRECT TYPE.  
DISPOSE OF USED BATTERIES ACCORDING  
TO THE INSTRUCTIONS.

## Warranty

ETI Ecosol Technologies warrants its PowerSeries products against defects for life as long as the item has been purchased from an authorized distributor and proof of payment can be verified. The defective product must be mailed postage paid to:

Ecosol Technologies, 29 Camelot Drive, Ottawa, Ontario Canada K2G 5W6

Upon receipt, ETI Ecosol Technologies will either correct any problems with the unit and restore it to working condition, or replace the unit, at its discretion. This warranty will not apply to units that have been purchased from non-authorized sources or ones damaged through improper use.

## Safety

Do not operate in wet conditions or submerge in water.

Do not charge Powerstick Plus above 40°C/100°F or below 0°C/32°F.

Do not charge your cellphone, PDA or MP player above 40 °C/100°F or below -15°C/5°F.

This device complies with Part 15 of FCC rules. Operation is subject to the following conditions:

1. This device may not cause harmful interference
2. This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.
