How to set up the "SongPal" app

"SongPal" is a free dedicated app for smartphones that allows you to enjoy the music content on your audio system or smartphone, by using a wireless BLUETOOTH® connection. Some features of the app are as follows.

- Choose music and control playback on the various music sources in combination with the functions of your audio system and a "SongPal"-ready smartphone.
- Operation of sound settings, power control and other features is easy and intuitive.
- Instantly recognizable content browsing and visually easy-to-use music play features make navigation easier and more enjoyable with your smartphone.

The app is available at both Google Play™ and App Store. Search for "SongPal" and download it to find out about more convenient features.
